## Performance Test (Tableau)

|               |                                                                     |
|---------------|---------------------------------------------------------------------|
| Date          | 01 October 2026                                                     |
| Team ID       | SWUID2026355656                                                     |
| Project Name  | Script-Controlled ACL – Restrict Record Access Based on Field Value |
| Maximum Marks | 5 Marks                                                             |

### Model Performance Testing:

Project team shall fill the following information in model performance testing template.

| S.No. | Parameter               | Screenshot / Values                                                                                                                                                                               |
|-------|-------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1     | Data Rendered           | Data sources connected:<br>'Books_Catalog.csv',<br>'Members_Info.xlsx',<br>'Borrow_Returns.csv'.<br>Joined using Member_ID<br>and Book_ID.<br>[Insert Data Rendered<br>Screenshot Here]           |
| 2     | Data Preprocessing      | Changed data types for<br>dates, aliased 'Status'<br>(0=Available, 1=Issued),<br>handled null values in<br>Return Dates.<br>[Insert Data Source<br>Screenshot Here]                               |
| 3     | Utilization of Filters  | Added interactive quick<br>filters for 'Publish Year',<br>'Genre', and 'Membership<br>Type'. Context filters added<br>for active members.<br>[Insert Filter Screenshot<br>Here]                   |
| 4     | Calculation fields Used | 1. Days_Overdue =<br>DATEDIFF('day',<br>[Due_Date], TODAY())<br>2. Total_Fine = IF<br>[Days_Overdue] > 0 THEN<br>[Days_Overdue] * 2 ELSE 0<br>END<br>[Insert Calculated Field<br>Screenshot Here] |

|   |                  |                                                                                                                                                                                                          |
|---|------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|   |                  | Screenshot Here]                                                                                                                                                                                         |
| 5 | Dashboard design | No of Visualizations /<br>Graphs - 5<br>(Bar chart for Top Books,<br>Heatmap for peak borrow<br>times, KPI text boxes for<br>Total Books and Active<br>Members)<br>[Insert Dashboard<br>Screenshot Here] |
| 6 | Story Design     | No of Visualizations /<br>Graphs - 8<br>(A Tableau Story walking<br>through Inventory Health -><br>Member Engagement -><br>Overdue Trends)<br>[Insert Story Screenshot<br>Here]                          |
